

Questionnaire on Current Clinic Management Practices in Government Hospitals

This questionnaire is part of an academic project aimed at understanding current practices and challenges in managing patient medical records and clinic workflows in government hospitals in Sri Lanka. All responses will be used strictly for educational purposes.

RESPONDENT BACKGROUND

Your role in the hospital *

- ☒ Nurse
- ☐ Clinic Staff
- ☐ Pharmacist
- ☐ Other:

Years of experience in government hospitals *

- ☐ Less than 1 year
- ☐ 1–5 years
- ☒ 6–10 years
- ☐ More than 10 years

PATIENT MEDICAL RECORD HANDLING

How are patient medical reports (blood reports, scans, prescriptions) currently stored? *

- ☒ Paper-based only
- ☐ Partially digital (some departments)
- ☐ Fully digital
- ☐ Not sure

Do patients typically need to bring their previous medical reports when visiting a clinic? *

- ☒ Always required
- ☐ Sometimes required
- ☐ Not required
- ☐ Don't know

Is there a centralized digital system in your hospital to view a patient's full medical history? *

- ☐ Yes
- ☒ No
- ☐ Not Sure

CLINIC WORKFLOW & DOCTOR CHALLENGES

Approximately how many patients attend a clinic session per day? *

- ☐ Less than 50
- ☐ 50–100
- ☒ 100–150
- ☐ More than 150

Is the same doctor assigned to a patient for every clinic visit? *

- ☐ Yes, the same doctor usually sees the patient at every visit
- ☒ No, the doctor changes depending on availability or duty schedule
- ☐ Patients may see different doctors randomly
- ☐ It depends on the type of clinic or medical condition
- ☐ Not sure

CLINIC SCHEDULING PRACTICES

How are clinic dates currently communicated to patients? *

☒ Written on clinic book/card

☐ Digital notification

☐ Other:

Are clinic sessions divided by time slots (morning/afternoon/evening)? *

☒ Yes

☐ Often

☐ Sometimes

☐ No

Are patients prioritized based on medical severity during clinics? *

- ☐ Yes
- ☒ No
- ☐ Informally (doctor decides)

MEDICINE ISSUING & PHARMACY PROCESS

Is there a digital system to track whether medicines were issued to patients? *

- ☐ Yes
- ☒ No
- ☐ Not Sure

DIGITAL SYSTEMS & FUTURE NEEDS

Would a digital system to store patient medical reports be beneficial? *

- ☐ Yes
- ☒ No
- ☐ Not Sure

Do you have any concerns about digitizing patient medical records? *

- ☐ Data privacy
- ☒ Security
- ☐ Staff training
- ☐ System misuse
- ☐ No concerns

Any additional comments or suggestions?

Digitalization is better, but we did not have any facilities
